Nash Pillai

Honors CS @ Georgia Tech

Fishkill, New York, United States

Summary

Hello, I'm Nash. I used to use Arch, btw, but now I use NixOS as my primary operating system. I also use GrapheneOS as my mobile operating system. I have 8 years of programming experience and have used a wide range of technologies. I am particularly passionate about higher-level mathematics and cybersecurity.

Experience

GreyHat @ Georgia Tech

7 months

CTF Team Captain

February 2026 - Present (2 months)

Atlanta, GA

Sponsorship Manager & CTF Agent Team Lead

September 2025 - February 2026 (6 months)

Atlanta, GA

Ember Learning

Director of Web Development

August 2023 - Present (2 years 8 months)

- Created an AP Exam Simulator for the Ultimate Review Packet that generated \$400k and was used by 160k students
- Led a team of developers to create the frontend and backend of deaplearning.com, offering custom-trained AI tutors for AP courses and grew site to 300k users and \$10k ARR
- Used Railway and Azure to manage networking and infrastructure for server, database, and AI
- Built emberlearning.org, creating AI teaching assistants for any lesson and the scale of entire school districts

Stapplet

Independent Contractor

June 2025 - Present (10 months)

- Fixed numerous issues in the existing AP Statistics interactive website (<https://stapplet.com>) with 100k daily active users.
- Found and fixed a privilege escalation vulnerability allowing any student to become admin.
- Created modern React-based reimplementations of the website at <https://stapplet.nashpillai.com>.

The Environmental Defense Initiative
Chief Technology Officer
July 2024 - October 2025 (1 year 4 months)

John Jay History Honor Society
2 years

President
June 2024 - May 2025 (1 year)
Hopewell Junction, New York, United States

Vice President
June 2023 - June 2024 (1 year 1 month)
Hopewell Junction, New York, United States

John Jay Robotics Club
3 years 9 months

President
May 2024 - May 2025 (1 year 1 month)
Hopewell Junction, New York, United States

- Led team to qualifying and competing at the World Championship for the first time in club history
- Organized and ran dozens of community workshops for CAD, coding, AI, ML, digital circuits, 3D printing, and more.
- Created a fully featured inventory management system including user management, admin panel, tracking the usage of thousands of parts from several suppliers across multiple projects, and using web scrapers to update info.
- Wrote a custom I2C driver and a custom event loop implementation.
- Created image processing pipelines in OpenCV to allow the robot to score autonomously

Director of Programming
June 2022 - May 2024 (2 years)
Hopewell Junction, New York, United States

I write most of the code for the robot

Bluebirds Team Captain

September 2021 - June 2022 (10 months)
